Year-round Sport Centre

SITUATED in the heart of the Canadian Rockies, nearly a mile above the sea, where the humidity is low and the air has a tang that makes life worth living, Banff is unrivalled for its winter sports facilities. Here ice and snow conditions remain ideal throughout the winter and good ski-ing is still available as late as mid-May, on the higher surrounding plateaus.

Since ski-ing has become America's most popular winter recreation owing to its increasing charm and fascination, Banff is now internationally known as Canada's premier ski resort. Why not plan now for a week or two in this Winter Wonderland, and enjoy the brilliant Alberta Sunshine, where large numbers now spend their winter vacations.

Radiating from the Hotel are trails to all ski-camps. Mount Norquay's slopes, reached by a good motor road, and only three miles from the hotel, are general favorites with the ski-ing fraternity. Here equipment may be rented, beginners may secure tuition, and others obtain more advanced ski-education from professionals at a moderate cost. Or you can make arrangements to visit one of the higher altitude camps, such as Sunshine, Skoki or Assiniboine, where snow conditions are unsurpassed.

Fully modern hotel accommodation is available at moderate prices on the American or European Plan.

In addition to ski-ing, all other winter sports are available: Skating, Curling, Sleighing, Tobogganing, Snow-shoeing, Ski-joring, etc.—these briefly outline Banff's recreational possibilities. A fine open air rink provides for hockey and the devotees of Figure and Speed skating; while in contrast, bathing may be enjoyed in the famous Hot Sulphur Springs.

The Big Event of the season is the Banff Winter Carnival, held annually in February, when contestants from far and near assemble to match their skill and speed in the various forms of winter sports.

You will appreciate the hospitality of the Banff people, who are ready to help the visitor whenever possible. Local stores carry a select stock of all winter sport goods, which are reasonably priced.

Banff, midst its snow-clad rugged grandeur, is to North America what St. Moritz is to Europe. If you are interested in a winter sports holiday you are cordially invited to write for full information. Our courteous and attentive staff are ever eager to assist you in planning your activities and the friendly, home-like atmosphere that greets you as you enter your Hotel — the comfortable lounge, with huge log fire — the hearty welcome — and the evenings spent in congenial company, all contribute to a holiday, the memory of which you will ever cherish.

Hunting, Camping, Fishing

BANFF and Lake Louise are two of the most convenient out-fitting points in the Canadian Rockies. Our large staff of licensed guides are available for private camping trips of long or short duration.

For the angler, there are many lakes and streams seldom fished within a journey of a day or two into the mountains; these are being stocked continually from the Banff hatchery, thus affording excellent sport.

In season the hunter has an opportunity to bag such game as deer, elk, moose, sheep, goat and bear. From ten days to a month should be allowed for such expeditions.

For those who wish to get out in the wilds and enjoy Nature at her best, no more delightful region could be selected than the Canadian Rockies. Trips to the Columbia Icefield, Mt. Assiniboine, the Royal Group, Ya-Ha Tinda Ranch, Wolverine Plateau, etc., suggest themselves as outstanding for scenic attraction, easily reached by pack trains travelling over well maintained government trails.

COLUMBIA ICEFIELD

"The Thrill of a Lifetime"

THIS BREATH-TAKING TRIP of indescribable scenic grandeur, penetrates the very heart of the Canadian Rockies, and embraces that vast section between Lake Louise and Jasper, previously accessible only by pack-train and at considerable cost.

This region has for many years fascinated the skilled mountaineer in search of new thrills, and in it still remain many unnamed and unclimbed peaks. Here, twisting active glaciers descend the valleys to points close to the main highway and are of special interest, not only to the photographer and geologist, but to all who are privileged to visit this new wonderland. The myriads of wild flowers which bloom in profusion in these alpine valleys and upon the mountain sides are a joy to all nature lovers, who penetrate this new tourist paradise. Wild life is abundant, and big game, such as Rocky Mountain sheep and goat, moose, elk, deer and bear are frequently seen upon the hillside, or in the meadows.

Some of the numerous points of interest on the tour are: The Columbia Icefield, reputed to be the largest deposit of ice south of the Arctic Circle, one of the tongues of which advances to within a stone's throw of the road; Hector Lake and Mt. Hector (11,135 ft.); Bow Lakes; Crowfoot Glacier; Peyto Lake and Glacier; Waterfowl Lakes; Howes Peak (10,800 ft.); Mt. Amery (10,904 ft.); Mt. Murchison, (10,936 ft.); Saskatchewan Glacier; Mt. Athabasca (11,452 ft.); Mt. Wolley (11,170 ft.); Diadem Peak (11,060 ft.); and of special interest—the Snow Dome, a peak of 11,340 feet in height, still completely clad in solid glacial ice which dates back to the Ice Age. This peak is the very apex of the Continent, for from its glaciers, which are a part of the Columbia Icefield, rivers are born which flow to three oceans—the Athabasca to the Arctic, the Saskatchewan to the Atlantic and the Columbia to the Pacific. The climb to the summit is not too difficult for the inexperienced mountaineer, and what a thrill it is to really sit "on the top of the world."

Here truly is a country yet unspoiled by man, and this new feature may justly be termed "The Pioneer Tour DeLuxe," with a thrilling surprise at every turn.

Columbia Icefield Chalet, owned and operated by the Brewster Transport Co., is beautifully situated at the foot of Athabasca Glacier, at an altitude of 6,525 feet. The Chalet is fully modern, and comfortably furnished rooms, with or without bath, are available on American Plan, as low as \$6.50 single and \$11.00 double, per day.
